

## Restriction of Hazardous Substances (RoHS)

January 14, 2008

Illinois Capacitor, Inc. only produces capacitors that are in compliance with the requirements of the EU legislation for RoHS EC Directive 2002/95/EC and the WEEE requirements EC Directive 2002/95/EC.

The restricted materials listed below have been eliminated or reduced to below the acceptable levels as stated in the EC Directive 2002/95/EC.

RoHS Material	
Lead	<0.1% of the component weight, ≤1000ppm
Mercury	<0.1% of the component weight, ≤1000ppm
Cadmium	<0.01% of the component weight, ≤100ppm
Hexavalent Chromium	<0.1% of the component weight, ≤1000ppm
Polybrominated Biphenyls	<0.1% of the component weight, ≤1000ppm
Polybrominated Diphenyl Ethers	<0.1% of the component weight, ≤1000ppm

Illinois Capacitor, Inc. began producing capacitors that will meet the RoHS requirements starting in the second quarter of 2002 with final transition to all RoHS compliant production completed in 2005. **All current production is fully RoHS compliant.**

Products with date codes of 2005 and after are manufactured in complete compliance with the RoHS requirements of EC directive 2002/95/EC.

All packaging containing RoHS compliant product will show a lead free, RoHS compliant or similar indicator on them.

For any additional inquiries or specific questions on the Illinois Capacitor, Inc. schedule to comply with the EU RoHS requirements please contact us at (847) 675-1760x730 between 8:30AM and 5:00PM central time.
